Re: Homestake - Grants Mill Site - Groundwater

Dear Mr. Ghose:

Enclosed are three copies of the "Water Quality Changes in the Alluvial Aquifer Adjacent to the Homestake Tailings" report prepared by George Hoffman, consulting hydrologist. I believe this should answer all your questions dealing with past, present and future alluvial aquifer water quality changes.

Should you have any questions please contact me at the Homestake Mill site.

Sincerely,

HOMESTAKE MINING COMPANY
